## TECHNICAL SKILLS

- **Programming Languages:** Python, JavaScript, Java, SQL.
- **Web Technologies:** HTML5, CSS3, RESTful APIs, React.js.
- **Collaboration Tools:** Docker, Git, MS Office Suite, AWS, Linux, VS Code.
- **Methodologies:** Agile, CI/CD.

## EXPERIENCE

<b>Full Stack Developer Intern</b> <i>Electrify Services LLP — Ahmedabad (Onsite)</i>	June 2025 - Sept 2025
<ul style="list-style-type: none"><li>• Worked on both frontend and backend for a real-world enterprise project, collaborating with a cross-functional team.</li><li>• Designed and deployed the complete frontend using React.js, ensuring responsive UI and seamless API integration.</li><li>• Built and integrated a leave management module on the backend using NestJS PostgreSQL, handling validation, and database operations.</li></ul>	
<b>Full Stack Developer Intern</b> <i>Sai Instrument Services — Remote</i>	Jan 2025 - April 2025
<ul style="list-style-type: none"><li>• Contributed to the development of an HR SaaS application as part of a team, focusing on building modular microservices to support employee onboarding workflows.</li><li>• Contributed to the frontend using React.js to build interactive dashboards for HR teams, displaying key employee and recruitment data.</li><li>• Automated recruitment communications via Node.js integration with Gmail API and Calendar services.</li></ul>	

## PROJECTS

<b>Car Rental Platform</b> <i>Technologies: MERN Stack   Live Demo</i>	Jan 2025
<ul style="list-style-type: none"><li>• Developed a responsive full-stack web application for booking and managing car rentals using MongoDB, Express.js, React, and Node.js.</li><li>• Designed RESTful APIs to handle user, vehicle, and booking data efficiently with a mobile-friendly interface.</li><li>• Implemented secure login with JWT authentication and role-based access control to manage different user permissions.</li></ul>	
<b>Peer-to-Peer File Transfer Tool</b> <i>Technologies: React, JavaScript, Socket.io   Live Demo</i>	Jan 2024
<ul style="list-style-type: none"><li>• Built a web-based tool for secure peer-to-peer file sharing using WebSockets with Socket.io for real-time communication.</li><li>• Focused on performance by optimizing backend operations and ensuring smooth file transfers with minimal latency.</li><li>• Added bcrypt-based password hashing and token-based session management to secure access and file transfer sessions.</li></ul>	

## EDUCATION

<b>Vellore Institute of Technology</b> Bachelor of Technology in Computer Science and Engineering	July 2021 – July 2025
<b>Relevant Coursework:</b>	<b>CGPA: 8.85</b>
<ul style="list-style-type: none"><li>• <b>Core Courses:</b> Data Structures and Algorithms, Operating Systems, Database Management Systems, Computer Architecture and Organization, Theory of Computation, Software Engineering, Java Programming, Network and Communication, Digital Logic and Design, Internet and Web Programming, Discrete Mathematics and Graph Theory, Applied Linear Algebra</li></ul>	

## CERTIFICATIONS

<ul style="list-style-type: none"><li>• AWS Certified Cloud Practitioner: Demonstrates foundational cloud proficiency and AWS expertise.<ul style="list-style-type: none"><li>• Achieved AWS Certified Cloud Practitioner certification, demonstrating a strong foundational understanding of AWS Cloud concepts, services, pricing models, and global infrastructure.</li></ul></li><li>• MERN Full Stack Internship, Ethnus: Hands-on experience in modern web development.<ul style="list-style-type: none"><li>• Successfully built and optimized full-stack MERN web applications during an internship, contributing to a team project, handling daily tasks independently, and enhancing development speed and collaboration.</li></ul></li></ul>
